

Your Security is our profession

About Us

ODS is a premier ISO 9001:2015 certified security service provider in India. ODS is proud of its modest beginning in Year 2012 with only 3 employees and registered office in Mumbai. Over the last decade, ODS with a clear focus and commitment on the quality of service, has grown to a full scale Security Solution provider having over 10,000 personnel's on board and serving in more than 10 cities across India.

Since its inception, ODS has always placed paramount importance to the safety and security of its clients business and personal assets. Our endeavour has always been to provide utmost care and round the clock security of the entrusted assets in the most cost effective and reliable manner.

Mission

Our mission is to:

- Create an integrated security system for our esteemed clients
- Prioritising client safety and protecting their assets
- Ensuring preventive measures and practices and creating a round-the-clock secure environment for our clients and their employees
- Constantly improvising the existing security system
- Selecting, training and retaining the best personnel in the industry
- Delivering the maximum value for money to our clients
- Accruing justified returns on the delivered service value.

Vision

We aspire to become a leader in Security Solutions by maintaining focus and commitment in providing the most qualitative services using the technical leadership and innovative security solutions to our clients in diverse businesses through exceptional execution and value addition. We are committed to build long-term relationships with our clients by honouring our vision and meeting the expectations of our clients in consistent manner.

Corporate Security

We offer a comprehensive range of corporate security services encompassing the various aspects of the tangible assets or premises guarded by the ODS. We work closely with our clients and partners to develop a need based and completely customised security solutions that are consistent, reliable, dependable, trustworthy and client focussed. The Corporate Security primarily involves

Guarding & Security Awareness

A key to our success and consistent growth has been the methodology adopted in hiring the personals at all levels. Further, we provide every employee with the latest and above industry standards pre-deployment training through continuous learning at the site level and provide support and ongoing improvement training.

Dedicated and highly trained guarding officers selected to strengthen your operations and build safer, more secure places, including by offering security awareness training for your teams to empower them to act.

Surveillance

ODS Protective services offers wide range of industrial security solutions to safeguard your industry from convention and modern age threats risks and vulnerabilities by providing right kind of trained manpower and continuous upscaling of the deployed team. We have a highly trained and motivated manpower to provide you with the best of security and safety services and respond in the event of any eventuality to unwanted crimes and breach of security.

Workplace Safety & Emergency Management

With Corporate Safety and Security as our prime focus area, keeping employees safe, healthy, and productive is a key priority for us in any workplace. Through education, training and safety awareness, our corporate security services can help reduce workplace accidents and injuries, improving your employees' quality of life.

Consulting Services

Security decisions you make today can determine your organization's security, resilience for years to come. Our comprehensive security consulting services enable you to feel more confident about the actions you take to protect your office, employees, operations, facilities, and assets.

Industrial Security

ODS Protective services offers wide range of industrial security solutions to safeguard your industry from convention and modern age threats risks and vulnerabilities by providing right kind of trained manpower and continuous upscaling of the deployed team.

We have a highly trained and motivated manpower to provide you with the best of security and safety services and respond in the event of any eventuality to unwanted crimes and breach of security

Banking Security Services

When it comes to the financial industry, we understand that the security needs are different from other industries and accordingly, we make sure that our security professionals are trained specifically in the area of banking and finances.

We make sure that your financial institutions security programs include only the highest levels of security to ensure control, incoming and outgoing monitoring, patrols, after-hours protection, alarm monitoring, etc.

- We conduct a risk advisory consulting analysis to determine what threats you could have, conduct a situational analysis and carefully plan a proactive approach to lower the risks.
- Protect access points and manage visitors using access control systems, video systems and an integrated visitor management technology.

- Protect your staff, executives and customers using specialized training and personal protection solutions
- Ensure efficient business operations.
- Constant surveillance with remote video monitoring and security robotic services to protect the institution
- Incorporate a workforce management platform to lower incidents and better the security response
- Use an intrusion and detection monitoring and response system to improve situational awareness, protect assets and recognize where security breaches could be etc.

Electronic Security and Surveillance Systems

Electronic security system refers to any electronic equipment that could perform security operations like surveillance, access control, alarming or an intrusion control to a facility or an area.

ODS has developed its proficiency and expertise in Electronic Safety and Surveillance in such a way that we understand the specific needs of your safety requirements based on functioning and technology usage, conditions of necessity and accordingly deploy the necessary systems to meet the security requirements. Generally the Surveillance Systems used by ODS is three categories:

- CCTV surveillance Electronic Security System
- Fire detection/Alarming System
- Access Control/Attendance System

Event Security Management & Executive Protection Services

ODS approach to event security and executive protection starts with a comprehensive threat assessment, analysing both the macro and micro threat environments associated with the event, the visit of the dignitary such as its host the venue/environment, known or expected.

Our Goal is to Provide

The host or coordinating committee with a realistic understanding of the real time threat, risk and vulnerability environment including a list of potential elements that may impact the safety and security of those involved, and the dignitary including the event.

ODS Protective Services develops security plans tailored to the precise needs of our clients to safeguard all involved from harm, attack, illegal acts and embarrassment while considering the intended narrative of each event. Our client first consultative process keeps you involved throughout our planning, development and implementation phases of any safety and security plan.

Finally ODS provides the trained experienced and professional security personnel needed to implement our security plan anywhere in the country so you can focus on your important and critical priorities.

Asset Protection & Loss Prevention

Theft is a top concern for anyone who owns and deals in commodities having significant monetary value such as cash and other assets that have value to bad intentions and prospective perpetrators.

No matter what industry you operate in and how well you train your staff, theft is always a risk. Stolen merchandise can cost you lakhs of rupees and create unsafe environment for your employees.

During busy weekends or holiday seasons, theft numbers skyrocket as employees are too busy serving customers to keep an eye on shoplifters. By hiring trained, professional loss prevention security guards your employees can focus on the task at their hand rather than monitoring for theft.

Security Guards from ODS Protective Services are trained to identify behaviour that commonly indicates that a theft is in progress. They understand how to handle a shoplifter in a professional yet firm manner and to communicate clearly with law enforcement in the event of an incident.
